Date of Birth: 14-03-1998

Education

BS Computer Science, FAST NUCES, 2019
FSc Pre-Engineering, 2015

Experience

Backend Engineer, Systems Limited (2019 - 2023)

- Built Django REST services for a retail client and moved two endpoints to FastAPI with Pydantic validation.
- Added a ticket summary feature that calls the OpenAI API, with a fallback when the call fails.
- Designed PostgreSQL tables with a customer_id column and query checks so one customer cannot read another's orders.
- Wrote pytest suites, set up GitHub Actions and deployed with Docker to a staging and production server.

Skills

Python, Django, FastAPI, PostgreSQL, Docker, pytest, Git
